

Student Name _____

Post-Course AssessmentWhat is this?

A post-course assessment asks students to reflect and comment on their learning experience during the semester.

Why are you asking me to do this?

Short answer: Because it helps you and I assess the quality of our learning together.

I asked you to complete this assessment tool at the beginning of the semester so that you can see how much you've learned during our time together.

*****NOTE*****

There is no penalty for not knowing something in this assessment. However, you will receive a participation grade for completing this self-assessment.
